**Pregnancy**
Rapid, one-step test for the qualitative detection of human chorionic gonadotropin (hCG).

**Infectious Diseases**
A rapid chromatographic immunoassay test for the qualitative detection of Strep A antigen from throat swab specimens. A rapid chromatographic immunoassay technology identifies heterophile antibodies in whole blood, serum or plasma to aid in the diagnosis of Infectious Mononucleosis.

**Cancer Screening**
Convenient and qualitative methods for detection of asymptomatic occult bleeding. Available in guaiac slide.

**Gastrointestinal Disorders**
A rapid test for the qualitative detection of IgG antibodies to Helicobacter pylori in whole blood, serum and plasma.
Pregnancy Test Devices

Rapid, one step tests for the qualitative detection of human chorionic gonadotropin (hCG) in serum and or urine.

Three variations of Pro Advantage hCG tests are available: Urine Cassette Devices, Urine/Serum Pregnancy Devices and Urine Test Strips.

- >99% Sensitivity; >99% Specificity
- 25 mIU/mL minimum hCG detection level
- Accurate results in 3 minutes for urine and 5 minutes for serum
- CLIA waived for urine and FDA 510(k) cleared to market.

| P080063 | Urine hCG Pregnancy Cassette Device  
Includes: 25 individually packaged devices and droppers. 25 tests per box |
| P080021 | Urine/Serum hCG Pregnancy Cassette Device  
Includes: 25 individually packaged devices and droppers. 25 tests per box |
| P080023 | Urine hCG Pregnancy Test Strips  
Includes: 20 Test Strips per canister, 5 canisters per box |
Strep A Test

A rapid test for the qualitative detection of Strep A antigen in throat swab specimens.

Lateral flow immunoassay technology identifies antibodies specific for whole cell Lancefield Group A Streptococcus to selectively detect Strep A carbohydrate antigen in a throat swab specimen. Aids in the early diagnosis of Group A Streptococcal infection.

- 97% Sensitivity; 95% Specificity
- Accurate results in 5 minutes
- Quickly diagnose and treat infections to help avoid serious complications
- CLIA waived and FDA 510(k) cleared to market
- Room temperature storage

Infectious Mononucleosis Test Device

Rapid chromatographic immunoassay technology identifies heterophile antibodies in whole blood, serum or plasma to aid in the diagnosis of Infectious Mononucleosis.

- Qualitative membrane strip based immunoassay for detection of IM heterophile antibodies
- All inclusive 20 test kit
- Simple to perform using whole blood (from venipuncture or fingerstick), serum or plasma
- Reliable results in 5 minutes
- CLIA waived for whole blood and FDA 510(k) cleared to market

**Fecal Occult Blood Test Devices**

Rapid, convenient, and qualitative methods for asymptomatic occult bleeding. Available in guaiac slide – with both color enhanced sensitivity and readability.

- On board positive and negative monitors
- Includes enhanced color sensitivity and readability
- CLIA waived and FDA 510(k) cleared to market

### Item # | Description
--- | ---
**Fecal Occult Blood Test Devices**
PO80008 | Fecal Occult Blood Patient Pack – Guaiac Slide  
Includes: 100 Triple Slide Tests, 6X10mL Developers, Applicators, Foil-Lined U.S. Postal Service approved envelopes. 2x50 per box

PO80018 | Fecal Occult Blood Lab Pack – Guaiac Slides  
Includes: 100 Single Slides Tests, 2x10mL Developers, Applicators. 100 per box

PO80028 | Fecal Occult Developer Solution – for Guaiac Slides  
Includes: 8x10mL Developers. 8 per box

**H. pylori Test Device**

A one step, qualitative membrane strip based immunoassay for the detection of H. pylori IgG antibodies in whole blood, serum or plasma.

H. pylori is one of the most common bacterial infections in humans causing active and chronic gastritis, non-ulcer dyspepsia and gastric/duodenal ulcer formation. The Pro Advantage H. pylori Test Device – Whole Blood/Serum/Plasma offers a simple and quick test format which assists the physician in making a treatment decision during the same office visit.

- 88% sensitivity; 89% specificity
- Accurate results in 10 minutes
- Reduces the risk of developing more serious illnesses
- Lessens the likelihood of complications
- CLIA waived for whole blood and FDA 510(k) cleared to market
- Fast and easy – no biopsy or histology expertise required

### Item # | Description
--- | ---
PO80095 | H. pylori Test Device – Whole Blood/Serum/Plasma  
Includes: 20 individually packaged devices, 20 disposable sample droppers, 20 disposable heparinized capillary tubes, 1 dispensing bulb, 1 sample buffer, 1 procedure card, 1 package insert. 20 tests per box
